⁽A) This information is not available on an individual basis. Information regarding the pension plan is summarized in the attached copy of Footnote 11 of CenturyTel, Inc. 2008 Form 10-K.

(11) DEFINED BENEFIT AND OTHER RETIREMENT PLANS

We sponsor defined benefit pension plans for substantially all employees. We also sponsor a Supplemental Executive Retirement Plan ("SERP") to provide certain officers with supplemental retirement, death and disability benefits. In late February 2008, our board of directors approved certain actions related to our SERP, including (i) the freezing of additional benefit accruals effective February 29, 2008 and (ii) amending the plan to permit participants to receive in 2009 a lump sum distribution of the present value of their accrued plan benefits. Because of the elimination of future benefit accruals, we also enhanced plan termination benefits by (i) crediting each active participant with three additional years of service and (ii) crediting each participant who is not currently in pay status under the plan with three additional years of age in connection with calculating the present value of any lump sum distribution to be made in 2009. We recorded a curtailment loss of approximately \$8.2 million in 2008 related to the above-described items. In anticipation of making the lump sum distributions in early 2009, we liquidated our investments in marketable securities in the SERP trust and recognized a \$4.5 million pre-tax gain in the second quarter of 2008. We also will record a one-time settlement charge in the first quarter of 2009 of approximately \$7.7 million in connection with the lump sum distributions that were made in early 2009. We use a December 31 measurement date for all our plans.

The following is a reconciliation of the beginning and ending balances for the aggregate benefit obligation and the plan assets for our above-referenced defined benefit plans.

| Fair value of plan assets | | 352,830 | 459,198 | 452,293 |
| Net amount recognized | <u>\$</u> | (109,871) | (10,239) | (22,009) |

In accordance with SFAS 158, the unamortized prior service cost (\$1.2 million as of December 31, 2008) and unrecognized net actuarial loss (\$206.9 million as of December 31, 2008) components have been reflected as a \$208.1 million net reduction (\$128.2 million after-tax) to accumulated other comprehensive loss within stockholders' equity. The estimated amount of amortization expense (income) of the above unrecognized amounts that will be amortized from accumulated other comprehensive loss and reflected as a component of net periodic pension cost for 2009 are (i) \$238,000 for the prior service cost and (ii) \$24.2 million for the net actuarial loss (which includes the \$7.7 million settlement charge mentioned above).

Amounts recognized on the balance sheet consist of:

| December 31, | 2008 | 2007 |
|---|--|---------------------|
| | (Dollars i | n thousands) |
| Pension asset (reflected in Other Assets)* Accrued expenses and other current liabilities* | STORY OF THE PROPERTY OF THE P | 28,536) (1,479) |
| Other deferred credits* | (72,058 | (37,296) |
| Net amount recognized | - \$ \(\chi \) (109.871 |) (10,239) |

^{*} In accordance with SFAS 158, those plans that are overfunded are reflected as assets; those plans that are underfunded are reflected as liabilities.

Our aggregate accumulated benefit obligation as of December 31, 2008 and 2007 was \$418.8 million and \$410.6 million, respectively.

Assumptions used in accounting for pension plans as of December 31, 2008 and 2007 were:

| | 2008 | 2007 |
|--|------------|-------------------|
| Determination of benefit obligation | | |
| Discount rate | 6.60-6.90% | 6.30-6. 50 |
| Weighted average rate of compensation increase | 4.0% | 4.0 |
| | | |
| Determination of benefit cost | | |
| Discount rate | 6.30-6.50% | 5.80 |
| Weighted average rate of compensation increase | 4.0% | 4.0 |
| Expected return on plan assets | 8.25% | 8,25 |

We employ a total return investment approach whereby a mix of equities and fixed income investments are used to maximize the long-term return of plan assets for a prudent level of risk. The intent of this strategy is to minimize plan expenses by outperforming plan liabilities over the long term. Risk tolerance is established through careful consideration of plan liabilities, plan funded status and corporate financial condition. We measure and monitor investment risk on an ongoing basis through annual liability measurements, periodic asset studies and periodic portfolio reviews. The fair value of substantially all of our pension plan assets is determined by reference to observable market data consisting of published market quotes.

Our pension plans weighted-average asset allocations at December 31, 2008 and 2007 by asset category are as follows:

| | 2008 | 2007 |
|------------------------------------|--------|-------|
| Equity securities Debt securities | 64.3% | 70.8 |
| Other | 3.0 | 2.0 |
| Total | 100.0% | 100.0 |

In determining the expected return on plan assets, we study historical markets and apply the widely-accepted capital market principle that assets with higher volatility and risk generate a greater return over the long term. We evaluate current market factors such as inflation and interest rates before determining long-term capital market assumptions. We also review peer data and historical returns to check for reasonableness.

During 2008, we contributed approximately \$52.5 million to our pension plans. The amount of the 2009 contribution will be determined based on a number of factors, including the results of the 2009 actuarial valuation report. While we expect our required minimum cash contribution for these plans for 2009 to be minimal, we may make discretionary contributions in 2009.

Our estimated future projected benefit payments under our defined benefit pension plans are as follows: 2009 - \$68.1 million (which includes approximately \$37 million of lump sum distributions made in early 2009 related to the SERP); 2010 - \$34.6 million; 2011 - \$34.1 million; 2012 - \$35.3 million; 2013 - \$37.6 million; and 2014-2018 - \$204.7 million.

Through December 31, 2006, we also sponsored an Employee Stock Ownership Plan ("ESOP") which covered most employees with one year of service and was funded by our contributions determined annually by the Board of Directors. Our expense related to the ESOP during 2006 was \$7.9 million. Our contribution to the ESOP was discontinued after 2006.

We also sponsor qualified profit sharing plans pursuant to Section 401(k) of the Internal Revenue Code (the "401(k) Plans") which are available to substantially all employees. Our matching contributions to the 401(k) Plans were \$10.5 million in 2008, \$10.6 million in 2007 and \$8.6 million in 2006.

(10) POSTRETIREMENT BENEFITS

We sponsor a health care plan (which uses a December 31 measurement date) that provides postretirement benefits to all qualified retired employees. Over the past few years, we amended certain retiree contribution and retirement eligibility provisions of our plan, including a 2008 amendment that increased the level of prescription drug co-payment obligations by retirees.

The following is a reconciliation of the beginning and ending balances for the benefit obligation and the plan assets.

| December 31, | | 2008 | 2007 | 2006 |
|--|----------|----------|-------------------|----------|
| | | (Doll | ars in thousands) | |
| Change in benefit obligation | | | | |
| Benefit obligation at beginning of year | \$ | 306,633 | 357,417 | 353,942 |
| Service cost | | 4,926 | 6,923 | 6,982 |
| Interest cost | | 19,395 | 20,133 | 18,980 |
| Participant contributions | | 2,789 | 2,016 | 1,583 |
| Plan amendments | | (9,093) | (4,552) | (7,978) |
| Acquisition | | | 2,277 | |
| Direct subsidy receipts | | 1,092 | 1,299 | 717 |
| Actuarial (gain) loss | | (11,992) | (60,312) | 319 |
| Benefits paid | | (20,863) | (18,568) | (17,128) |
| Benefit obligation at end of year | <u> </u> | 292,887 | 306,633 | 357,417 |
| | | | | |
| Change in plan assets | \$ | 28,324 | 30,080 | 29,545 |
| Fair value of plan assets at beginning of year | J | | | 3,280 |
| Return (loss) on plan assets | | (6,166) | 1,916 | |
| Employer contributions | | 12,721 | 12,880 | 12,800 |
| Participant contributions | | 2,789 | 2,016 | 1,583 |
| Benefits paid | | (20,863) | (18,568) | (17,128) |
| Fair value of plan assets at end of year | <u>s</u> | 16,805 | 28,324 | 30,080 |

Net periodic postretirement benefit cost for 2008, 2007 and 2006 included the following components:

| Year ended December 31, | | 2008 | 2007 | 2006 |
|---|-------------|-----------------|--------------------|---------|
| | | (Dol | lars in thousands) | |
| | en dan elek | 4,926 | 6,923 | 6,982 |
| Service cost | J | 4,920 19.395 | 20.133 | 18,980 |
| Interest cost | | (2,337) | (2,482) | (2,437) |
| Expected return on plan assets | | (2,557) | (2,402) | 3.719 |
| Amortization of unrecognized actuarial loss | | (2.606) | (۵ مور) | |
| Amortization of unrecognized prior service credit | | (2,606) | (2,020) | (855) |
| Net periodic postretirement benefit cost | 3 | 19,378 | 26,149 | 26,389 |

The following table sets forth the amounts recognized as liabilities on the balance sheet for postretirement benefits at December 31, 2008, 2007 and 2006.

| December 31, | 2008 | 2007 | 2006 |
|---------------------------|-----------------|-------------------|-----------|
| | (Do | lars in thousands | |
| | | | |
| Benefit obligation | \$ (292,887) | (306,633) | (357,417) |
| Fair value of plan assets | 16,805 | 28,324 | 30,080 |
| Accrued benefit cost | \$ (276,082) | (278,309) | (327,337) |

In accordance with SFAS 158, the unamortized prior service credit (\$17.9 million as of December 31, 2008) and unrecognized net actuarial loss (\$11.6 million as of December 31, 2008) components have been reflected as a \$7.2 million after-tax decrease to accumulated other comprehensive loss within stockholders' equity. The estimated amount of amortization income of the above unrecognized items that will be amortized from accumulated other comprehensive loss and reflected as a component of net periodic postretirement cost during 2009 is \$3.5 million for the prior service credit.

Assumptions used in accounting for postretirement benefits as of December 31, 2008 and 2007 were:

| | 2008 | 2007 |
|--|------------|-----------|
| Determination of benefit obligation | | |
| Discount rate | 6.90% | 6.50 |
| Healthcare cost increase trend rates (Medical/Prescription Drug) | | |
| Following year | 7.0%/10.0% | 7.0/10.0 |
| Rate to which the cost trend rate is assumed to decline (the ultimate cost trend rate) | 5.0%/5.0% | 5.0/5.0 |
| Year that the rate reaches the ultimate cost trend rate | 2011/2014 | 2010/2013 |
| Determination of benefit cost | | |
| Discount rate | 6.50% | 5.75 |
| Expected return on plan assets | 8,25% | 8.25 |

We employ a total return investment approach whereby a mix of equities and fixed income investments are used to maximize the long-term return of plan assets for a prudent level of risk. The intent of this strategy is to minimize plan expenses by outperforming plan liabilities over the long term. Risk tolerance is established through careful consideration of plan liabilities, plan funded status and corporate financial condition. We measure and monitor investment risk on an ongoing basis through annual liability measurements, periodic asset studies and periodic portfolio reviews.

Our postretirement benefit plan weighted-average asset allocations at December 31, 2008 and 2007 by asset category are as follows:

| | 2007 | 2008 |
|--|--------|-------------|
| Equity securities | 46.7% | 55.8 |
| Debt securities The securities of the securitie | 26.4 | 26.8 |
| Cash and cash equivalents | 26.9 | 17.3 |
| Other Control of the | | |
| Total | 100.0% | 100.0 |

In determining the expected return on plan assets, we study historical markets and apply the widely-accepted capital market principle that assets with higher volatility and risk generate a greater return over the long term. We evaluate current market factors such as inflation and interest rates before determining long-term capital market assumptions. We also review peer data and historical returns to check for reasonableness.

Assumed health care cost trends have a significant effect on the amounts reported for postretirement benefit plans. A one-percentage-point change in assumed health care cost rates would have the following effects:

| | 1-Percenta | ge I-Percentaj | ge |
|--|--------------|--------------------|-------|
| | Point Increa | | ase |
| | (Dol | lars in thousands) | |
| Effect on annual total of service and interest cost components | | 214 | (282) |
| Effect on postretirement benefit obligation | \$ 2 | 2,763 (3 | ,632) |

We expect to contribute approximately \$13 million to our postretirement benefit plan in 2009.

Our estimated future projected benefit payments under our postretirement benefit plan are as follows:

| | Befor | re Medicare | Medicare | Net of |
|-----------|-------|-------------|---------------------|---------------------|
| Year | S | Subsidy | Subsidy | Medicare Subsidy |
| | | (Do | llars in thousands) | |
| 2009 | \$ | | 1212 | 18,165 |
| 2010 | \$ | 21,514 | 1,394 | 20,120 |
| 2011 | \$ | 23,388 | 1,595 | 21,793 |
| 2012 | \$ | 24,316 | 1,842 | 22,474 |
| 2013 | \$ | 25,465 | 2,035 | 23,430 |
| 2014-2018 | \$ | 137,634 | 6,384 | 131,250 |
